**APPLICATION FOR  
THE 2019 CHILDREN IN MUSEUMS AWARD**

**The closing date for applications is 15 February 2019.**

**INFORMATION ON THE AWARD**

The Children in Museums Award was established in 2011 by the European Museum Academy and Hands On! International Association of Children in Museums. It recognises excellence and innovation in programmes and exhibits designed for children up to the age of 14 years.

**THE JURY**

The Award is judged by a panel of experts experienced in many disciplines within the museum field who all contribute their time as volunteers. The judges are looking especially for museums, exhibitions, programmes and museum environments that show:

- a commitment to children, to encourage children's curiosity and to stimulate their imagination
- creativity and innovation
- quality learning experiences

The judges will be looking for what is understood as "public quality". In this specific case, the museum's commitment to improving children's experiences, growth, learning, well-being through the museum environment, atmosphere and programming.

**ELIGIBILITY**

Applications are welcomed from children's museums; from education, children's and youth departments in museums; and from specialist subject museums with a particular emphasis on children's programming. Museums may be long-established or recently opened. However, priority is given to programmes which display recent innovation. Museums can compete as such or apply with a special (temporary) programme or exhibition. The project entered for the Award, however, must be current and open for viewing in the judging year, i.e. between 1 April and 15 August 2019.

## **CRITERIA:**

### **1. INNOVATION**

E.g. Showing new pathways to enlarge subject matters, new ideas for using collections in children's programmes/, new ways of using technologies to interact with the content, new forms of actively engaging young visitors, etc.

### **2. QUALITY OF LEARNING**

E.g. Creating an overall environment and atmosphere which are conducive to learning, using interactivity to favour understanding, involving children in the conception and design, testing and evaluation of programmes and exhibitions, etc.

### **3. INCLUSION AND SOCIAL IMPACT**
